Intermodality & connection of urban planning and transport

A photograph of a man and a woman in business attire engaged in a conversation at what appears to be a networking event. The man, on the left, is wearing a light blue striped shirt and a brown tie. The woman, on the right, is wearing a grey blazer over a white top with a bird pattern. Both are holding informational brochures. The background is blurred, showing other people and warm lighting. A semi-transparent blue box with white text is overlaid in the upper right corner of the image.

Many opportunities for networking help participants to gain knowledge and to implement new policies in their cities
